U. S. PUBLIC LAND SURVEY MONUMENT RECORD

INSTRUCTIONS:

This record shall show the location of the corner and shall include all of the following nine elements (a through !).

 (a) Identify the corner by reference to the U.S. public land survey system.
 Corner monument restored.

East One - Sixteenth Corner between Sections 12 and 13, T.35N., R.15E., Forest County, Wisconsin.

State Plane Coordinates Wisconsin North Zone N - 132603.28249 E - 2338384.89547

Geographic Coordinates N - 45 - 31 - 15.96679 W - 088 - 33 - 24.90382

(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed.

In 1977, Jean Resvick, RLS, established the corner position at mid-point and on line between the Southeast Section Corner and the South Quarter Corner of Section 12. Set a 2" X 36" galvanized iron pipe with a brass cap stamped to identify corner. Made the following B.T.'s; Hemlock, 8", N.23°E., 57.77 feet, Hemlock, 21", S.40°E., 66.97 feet.

In 1994 Alan Harrison, RLS, found B.T.'s and monument below blacktop. The corner position was tied in to a 1994 G.P.S. survey of Section 12 and found to be out of position at a bearing of S.43° 24'44"E., 0.40 feet from the correct position. Moved the monument to its correct position adn made new ties as noted below. Set railroad spike above monument.

- (c) in the plan view drawing below, provide reference ties to at least 4 witness monuments, or, if the location is within a municipality, to at least 2 witness monuments. (witness monuments shall be made of concrete, natural stone, iron orother equally durable material.)
- (d) Show a plan view drawing depicting the relevent monuments and reference ties which is sufficient in detail to enable accurate relocation of the corner monument if the corner monument is disturbed. Indicate north.
 - Railroad Spike in blacktop over 2" X 30" monument.
 - 2. Hemlock, 8", N.23°E., 56.97 feet.
 - 3. Hemlock, 21", S.40°E., 67.17 feet.
 - 4. Steel Sign Post, North, 17.00 feet.
 - 5. C/L of F.R. # 2136, South, 7.35 feet.

(e) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d). above. Show the distances between the corner as previously restored or reestablished and (i) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

New Position

N43°24'44"E - 0.40 feet

Old Position

(f) Was the corner restored through acceptance of (!) an obliterated evidence location, or, (2) a found perpetuated location ?

(g & h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

Established at mid-point and on line between the Southeast Section Corner and the South Quarter Corner of Section 12.
