CERTIFIED LAND CORNER RESTORATION U.S. PUBLIC LAND SURVEY RECORD

History of original corner establishment:

Original corner established by James L. Nowlin deputy surveyor in 1864 from which fir 14' bears N50E 5 1ks and fir 10" S45W 5 1ks.

Description of corner evidence found:

Re-established quarter section corner by proportionate method. Total distance from section corner 24-25-19-30 T38N R13 & 14E to section corner 19-20-29-30, T38N R14E is 5412.03'. Set quarter corner 2806.96' of NW section corner and 2605.07' of NE section corner on line between the two.

Description of monument and accessories I established to perpetuate the original location of this corner.

Set a 2½" A-1 Federal	Forest Co	unty monument cap stamped:	T38N R14E

Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

See drawing below

(f) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

(g&h) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

Proportionate method

T 38 N

R13E -- R14E

Reestablished

(type or print name) certify that the corner location shown on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
