**NOTE:** Bearings are referenced to polaris observations.

## SURVEY NOTES

This survey was made by John C. Schulke, a Registered Land Surveyor in the State of Wisconsin, for the U.S. Department of Agriculture, Forest Service. The purpose of the survey was for recovery, establishing, marking and perpetuating the corners and boundary lines of the U.S. Government Land on the perimeter of Section 2, Township 34 North, Range 15 East, Fourth Principal Meridian, Forest County, Wisconsin.

The Original Government Survey of the township boundary was done by Artemas Curtis in 1857. The Original Government Subdivision survey of this township was done by James McBride in 1859.

The bearings between corner positions are true bearings as determined by reference to polaris observations. The accuracy of this survey exceeds the State requirement for closure of 1 in 3,000. Corners recovered or established by this survey are marked as described in the map legend. Each monumented corner is referenced to blazed, scribed, painted and tagged bearing trees. Tie bearings are magnetic, and not corrected for declination.
