SURVEY NOTES

This survey was made by North Country Surveyors, under contract with the U.S. Department of Agriculture, Forest Service, for the purpose of establishing, marking and perpetuating the corners and boundary lines of U.S. Government land on the perimeter and within Section 29, Township 34 North, Range 14 East, Town of Freedom, Forest County, Wisconsin as shown on the plat herewith.

The original survey of the township subdivision by the government contractor, James McBride, Deputy Surveyor, was made in August, 1859. The Paul Smith family retraced the original survey and subdivided the section and northwest 1/4 in 1910-1914 with further surveys in 1922 and 1933. The Genisot Engineering Co. surveyors, J.M. Abernathy, L.S. #101 and J.C. Kirby, L.S. #253 retraced and re-established the west line of Section 29 and the Center 1/4 Corner in 1959. Jean F. Resnick re-established the North 1/4 Corner as well as the West 1/16 Corner on the north section line in a survey of Section 20 in 1977 and 1978.

The control traverse has a relative accuracy of 1 part in 15,400 with bearings bearings based on the west line of Section 20 as recorded in the J.F. Reswick survey. The field books for this contract are on file in the Forest Supervisor's office, Nicolet National Forest Hdqtrs., Rhinelander, Wis.

SURVEYOR'S AFFIDAVIT

State of Wisconsin ) ss  
County of Vilas )

I, Robert H. Winat, Land Surveyor 1040, North Country Surveyors, hereby certify that we have surveyed and subdivided the Northwest 1/4 of Section 29, Township 34 North, Range 14 East, Town of Freedom, Forest County, Wisconsin. The plat map and survey notes are a correct representation of the monumented corners, the land surveyed and the subdivision of the 1/4 section. I have surveyed and subdivided said 1/4 section in compliance with the rules for the survey of public lands, the statutes of the State of Wisconsin and the provisions of the Wisconsin Administrative Code.
