SURVEY NOTES

This plat of survey is the product of a Photogrammetric Project commencing in the fall of 1981, and completed in the spring of 1985 for Township 38 North Range 15 East, and Sections 1, 12, 13, 24, and 25, Township 38 North Range 14 East, Fourth Principal Meridian, State of Wisconsin.

All bearings are grid bearings referenced to a true North Central Meridian in the center of Township 38 North Range 15 East.

Co-ordinate values for corner positions were computed from photogrammetric target values with an adjusted R.M.S. factor of 1.21.

This survey was made by the U.S. Department of Agriculture, Forest Service for the purpose of recovering, restoring, establishing, marking, and perpetuating the corners and boundary lines of U.S. Government Land on the perimeter and within the sections in this project area.

The Original Government Survey of the township lines was made in 1857 by Artemas Curtis. The original subdivision of Township 38 North Range 15 East was made in 1865 by William E. Daugherty, and the original subdivision of Township 38 North Range 14 East was made in 1865 by H. and J.L. Nowlin.

The field notes of this survey and a copy of this and the remaining sections in this project area are on file in the Forest Service Supervisors Office at Rhinelander, Wisconsin.
